EDUCATION

Goldsmiths, University of London, *BSc Computer Science* 2020 – 2025

- Final Grade: ***2nd Class Honours (Upper Division)*** | Dissertation Grade: ***79%***
- Completed Modules Include - Algorithms and Data Structures I & II | Object Oriented Programming | Software Design and Development | Discrete Mathematics | Interaction Design | Natural Language Processing
- *Skills developed* - Software Engineering | OOP | Algorithm Design | Data Structures | HCI| NLP | Machine Learning | Database Management | Analytical and Computational Thinking

University of The People, *BSc Business Administration* 2017 – 2019

- Final Grade: GPA 3.2/4.0
- Completed Modules Include – Business Communications | College Algebra | Managerial Accounting | Business Policy and Strategy | Principle of Finance | Leadership | Strategic Management | Business Law and Ethics
- *Skills developed* - Business Strategy | Leadership & Team Management | Business Communication | Strategic Decision-Making | Project Management

PROJECTS

Real Time Sign Language Translator (BSc Computer Science final project)

- Developed a real-time sign language translation web application using React.js, MediaPipe Tasks and TensorFlow.js, integrating hand landmark detection and gesture recognition for accessible communication.
- Built and trained a custom gesture classification model using Python, TensorFlow/Keras and Scikit-learn, using the ASL Signs dataset from Kaggle; integrated the trained model into the browser for real-time inference.
- *Technologies*: Python, TensorFlow/Keras, Scikit-learn, MediaPipe, TensorFlow.js, React.js, Vite.

WORK EXPERIENCE

Work and Holiday Australia Scheme Nov 2024 – Present

- **Fluidra Australia,** Melbourne, Victoria | *Swimming Lane Rope Assembler*
- **The University of Sydney,** Sydney, New South Wales | *Barista*
- **Simplot,** Devonport, Tasmania | *Broccoli and Cauliflower Process Operator*

Uniqlo, *Digital Product Owner* Aug 2022 – Nov 2024

- Led the design and development of a Novelty Recorder System across 70+ Uniqlo stores, translating operational needs into a user-centred solution that saved over THB 80 million annually.
- Owned the development of a warehouse ordering app, simplifying staff workflows and reducing manual work by 50+ hours per week.
- *Skills developed:* Digital Product Management, Human-Centred Design, Requirements Gathering, Workflow Optimisation, Python, AppSheet, Power Automate, Google Apps Script, Looker Studio, Figma.

London Stock Exchange Group (formerly Refinitiv), *Application Support Engineer* Jun 2021 – Jul 2022

- Offered 3rd tier tech support to internal and external stakeholders, swiftly resolving queries and issues.
- Cut client wait time 80% via effective troubleshooting, boosting satisfaction and retention.

Iglu, *Software Engineer* Nov 2020 – Jan 2021

- Developed and deployed cloud-based applications for clients using AWS EC2 and S3 services.
- Utilized Node.js, TypeScript, React.js, and Redux stack to develop robust and scalable applications for clients.

Bangkok Airways, *Data Analyst Trainee* Sep 2019 – Dec 2019

- Conducted data analysis using Python to identify new travel patterns.
- Help design Power BI dashboards to present findings to senior management.
- Utilized SQL queries to support the executive board and data analytics department in identifying patterns and trends.

Pan Food, *ERP Coordinator* Jul 2018 – Aug 2019

- Led the implementation of an ERP system, achieving a 74% user satisfaction score.
- Conducted thorough user interviews to gather requirements and design the company's workflow for the ERP system.

Johnson & Johnson, *PMO – ERP Coordinator* Jan 2017 – Jun 2018

- Coordinated ERP implementation projects, achieving an 89% project success rate across assigned initiatives.
- Managed project schedules, milestones, progress tracking, and stakeholder communication using Excel and Trello to ensure timely delivery.

Netflix, *English – Thai – English Translator* Sep 2014 – Dec 2016

- Led the Southeast Asia localization project, managing translation workflows and QA/QC processes. Collaborated with the internal product team to improve the efficiency of translation tools.
- Translate movies, series and documentaries from English to Thai.

VOLUNTEER EXPERIENCE

Generation Global, *Global Alumni Ambassador Council 2025* Nov 2024 – Jan 2026
Devonport Library, *Digital Help Volunteer* Feb 2025 – Jun 2025
Paris Paralympic Game 2024, *Event Service Team Member* Aug 2024 – Sep 2024
